

THE OMINECA HERALD

Vol. 20

NEW HAZELTON, B. C., WEDNESDAY, JUNE 13, 1928

No. 50

Several Properties May be Joined With the American Smelting & Refining Co.

During the past couple of weeks a lot of work has been going on at the Mohawk property on Four Mile mountain and as a result of which the engineer in charge, Thos. B. Lewis, is more satisfied than ever that he has hit upon something which will keep his company going for a long time. He has had a lot of surface stripping done on the Mohawk and on the adjoining property, the old Babine. The veins are wider and the ore is good. On the Babine where they are working at the present time they are finding a lot of fine ore and it will be an important addition to the whole property when they find it in place.

While the surface work has been going on the lower tunnel has also been driven quite a distance and the ore was encountered last Saturday although a long way yet from where the management expected to pick it up. This is most encouraging and the engineer is well pleased.

During the past couple of weeks the engineer has also been visiting the Comet, an adjoining property and the American Boy, the latter is on Nine Mile mountain but not far away. Mr. Lewis likes the American Boy property

and he gave the Herald to understand that the plans he has now prepared to submit to the American Smelting & Refining Co., is to take in all those properties that he has been examining and bring them under one management. Then he proposes one mill which will take care of all the ores of these properties and also of any other property that wanted to ship to it.

The mill he has in mind would be located on Two Mile creek, quite handy to the Four Mile, the Nine Mile and the Glen Mountains properties. This of course would include handling the ore from the Silver Standard mine as well. It is a big scheme, quite the biggest undertaking yet considered for developing the mines adjacent to New Hazelton.

The end of this week Mr. Berge of the American Smelting & Refining Co. will be in New Hazelton to consult with Mr. Lewis in connection with the above plans and there is every reason to believe that they will be endorsed and work on the big program undertaken this summer. The whole plan will take some time to complete, but there will be great activity in this district this summer and fall.

Archdeacon Rix Succeeds Late Bishop DuVernet

Archdeacon George Alexander Rix, rector of St. Andrews Anglican church in Prince Rupert for the past fifteen years, and administrator of Caledonia diocese since the death of the late Archbishop F. H. DuVernet in October 1924, was unanimously elected the next bishop of Caledonia, at the synod held in the Cathedral, Prince Rupert on Wednesday afternoon last. The election was by ballot after the nominations had been opened. Only one other candidate was mentioned, Rev. R. J. Renison, D. D., of Christ Church Vancouver. After the second ballot had been taken the election of Archdeacon Rix was declared unanimous.

Bishop Rix will be a credit to Caledonia diocese. He will be a worthy successor to the late Archbishop DuVernet and will uphold the highest ideals of the church and of citizenship. Bishop Rix is an old timer on the northern coast and he is well known in the interior, not only as one of the leaders of his church, but as a personal friend and a good man. Caledonia diocese is to be congratulated in having Bishop Rix at the head of the church.

Local Items

Dugald Campbell of the Linotype Co. was a caller at the Herald office this week and gave the machine the once over. Outside of a lot of things that were not all right the rest of the thing was alright and he is now on his way to look over other machines in the district.

Mrs. Hunter of Prince Rupert who has been spending a month at Lake Kathryn is spending a day or two the guest of Mrs. Sawle.

Ward Marshall is now sporting a Chev. touring car. He was about the last of the New Hazelton boys who have not yet purchased a car this year.

Mrs. C. W. Dawson entertained about twenty of the ladies of Hazelton and New Hazelton on Tuesday afternoon to a handkerchief shower tea in honor of Mrs. J. H. Young who will shortly be leaving for Vancouver Island where she will make her home. The hostess was assisted by Mrs. Norman Cary, Mrs. Allen Benson and Mrs. Sawle presided at the tea table.

Two cars arrived this week at New Hazelton from California. The occupants of one car are prepared to locate here if they find suitable work.

BASEBALL ON SATURDAY

High school and Public school Team of Smithers vs New Hazelton

On Saturday afternoon the public school and high school baseball team of Smithers will come to New Hazelton and play the New Hazelton public school team. The latter team will be assisted by some of the boys of town seventeen years of age or under, but who are not attending school. The game will be played on the New Hazelton athletic grounds immediately after the arrival of the visitors who are coming down by car. They will be accompanied by a large number of the parents and other students and it is hoped that the citizens of New Hazelton and Hazelton will turn out in large numbers to see the game and to extend a welcome. The game will be started about 3.30.

Provincial Election is Set For July 18th But all is Quiet in the North Yet

The Sixteenth Parliament of British Columbia was dissolved on June 14 last and Premier McLean announced the next day that the election would be held on July 18, the earliest possible date following dissolution. The Premier then left for his trip through all the northern ridings arrived in Prince Rupert last Sunday. He will attend the Liberal nominating conventions in Atlin, Prince Rupert, Skeena, Omineca and Prince George. He will address public meetings at all those points and at as many other points as possible, including an afternoon meeting at Hazelton on Friday and an evening meeting in Smithers on Friday.

At those meetings the Premier will give an outline of the policy of the Liberal party and will ask for the continued support of his party on the record of the government during the last dozen years. The Premier will be accompanied on his trip by Hon. T. D. Pattullo and perhaps by Hon. Mr. Manson. Dr. Wrinch will be one of the party at Terrace, Hazelton and at

Smithers.

The Liberal convention at Terrace on Thursday afternoon will in all probability select the present member, Dr. Wrinch on the first ballot. All the reports of opposition to him that were being circulated, have died down and all the large delegations, at least, are instructed to support him.

The Conservative party seems to be pretty well satisfied with their organization and with their prospects. As yet they have announced no dates for meetings, but the likelihood is that there will be meetings enough before election day.

Hon. Dr. Tolmie, leader of the Conservative party in B. C., arrived in the south last Sunday and he has been on the jump ever since getting the boys in the big centres lined up and away to a good start. He has announced as one of the main planks of his platform "going after bigger business for B. C., and a larger population."

Indications are that the election in the Skeena riding will be fairly quiet.

FAREWELL SERVICES IN UNITED CHURCH NEXT SUNDAY

Next Sunday, June 17, Rev. J. H. Young will conduct farewell services at New Hazelton at 11 o'clock and at Hazelton at 7.30 p.m. Some special music will be provided to make these services bright. A special invitation is extended to all.

BOYS' AND GIRLS' SHEEP CLUBS

The boys' and girls' sheep clubs organized at five points in the county of Middlesex two years ago now have their second crop of lambs and a number of the flocks are growing rapidly. Indeed some of them have reached the regulation maximum of ten head and in some cases the parents of the boys and girls are adding to the flock which will be operated as a partnership business. The second sheep shearing contest for these clubs was recently held near the village of Delaware, when a number of the boys showed that they were making good progress in mastering the art of shearing. Through the generosity of the Junior Farmers' Association in Middlesex county, the Melbourne Junior Farmers' Association, the district representative office for the county, and some private individuals, sufficient money was contributed to provide prizes of \$5, \$3, and \$2 for each of three classes. The first class was open to all who wished to compete, and the third to machine shearing. There were seventeen competitors in all whose work was witnessed by a large gathering of farmers in the neighborhood.

These sheep clubs were organized jointly by the Ontario Department of Agriculture through the Agricultural Representative, and the federal Department through the Western Ontario Sheep Promoter of the Live Stock Branch. The federal demonstrator, Mr. Wm. Howard, working under the direction of Mr. James Telfer, the Sheep Promoter, has spent some weeks visiting the club members helping them to solve the difficulties of managing their flocks. The sheep shearing contest was a very successful community enterprise in which great interest was taken not only in the enterprise of the boys and girls, but also in stimulating a keener interest in sheep husbandry.

bandry.

ANNUAL AGRICULTURAL STATISTICS, 1928.

The Dominion Bureau of Statistics has made the customary arrangements for the collection and publication of the annual agricultural statistics of Canada for the year 1928. These statistics will be based upon returns to be collected next June from individual farmers upon cardboard schedules issued to them through the teachers and children of the rural schools. The schedule is a very simple one, calling only for the areas sown to field crops and the numbers of farm animals alive on the farm in mid-June. Upon the resulting estimates of total areas sown are based the preliminary, provisional and final estimates of yield, which are of supreme importance in connection with the movement, financing, distribution and sale of the principal cereals, especially of wheat, of which Canada is now the world's leading exporter.

The present plans for the collection of these statistics have been followed annually since 1917, and the estimates based thereon have come to be confidently relied upon by all interested in the production and distribution of Canadian grain.

Accurate statistics are indispensable for a proper appreciation of the national progress, and in order to ensure that the statistics may be as accurate as possible, it is earnestly hoped that farmer throughout the Dominion will not fail to render the small service required by filling up and returning the schedule issued.

If a farmer should not receive the cardboard schedule by the middle of June he should apply for same either to the school teacher of the nearest local rural school, or to his provincial Department of Agriculture, or to the Dominion Statistician at Ottawa. The aim is to obtain a completed schedule from every farmer, as the more numerous the returns, the more trustworthy will be the resulting estimates.

A pedestrian should always have himself under control.

The world is your oyster. Don't hurt yourself opening it.

Most advice seldom gets any farther than the ear drum.

Terrace Notes

Mrs. Olson and son of Amsbury were in town for a day.

Matt Allard of Kalum Lake was in town the end of the week.

H. C. James of Prince Rupert was here Wednesday.

Despite the large crowd that went to Kalum Lake on Saturday night, the crowd to Lakelse Lake on Sunday was about as large as usual. The water is now warm enough for swimming.

P. M. Monckton of Usk was here one day last week.

The Terrace Liberal Association got together on Wednesday evening last and appointed delegates to attend the Liberal convention here on Thursday afternoon. The delegates were E. T. Kenney, W. A. Kirkpatrick, H. Halliwell, R. W. Riley, L. H. Kenney, V. Soudie and F. C. Bishop. Alternates were appointed as follows, A. Holmwood, J. Vigers and T. J. Kirkpatrick.

A vote of confidence in the Liberal government at Victoria and in Dr. H. C. Wrinch, the local member, was passed.

Wm. Anger returned on Saturday after spending the winter with his parents at Dauphin, Man.

Annie Allen, Marjory Kenney, Mary Smith, Bertha Moore and Helen Smith accompanied by Mrs. E. T. Kenney and Mrs. Smith left Wednesday for Prince Rupert where the girls will try their examinations in music.

Mrs. Smith and Mrs. Moore of Port Essington are visiting in the district.

Olof Hanson was a passenger on the west bound train on Wednesday morning. It is rumored that his name will be put forward at the Liberal convention on Thursday in opposition to Dr. Wrinch. Mr. Hanson did not give out this information.

Telkwa Tales

Mrs. Fairbairn was an afternoon tea hostess last Thursday.

Mr. and Mrs. Wm. Boyle and Muriel motored to New Hazelton last Sunday.

Mrs. Mapleton gave a tea and shower in honor of Miss Pearl McDonald, whose wedding is announced to take place in the near future. Many very pretty and useful articles were presented to the guest of honor.

Mrs. A. Gilman was a guest for a few days of Mrs. Mapleton.

F. B. Chetleborough returned the end of the week from Vancouver after a successful business trip.

The bridge drive given last Friday for the benefit of the nursing home was a decided success. A goodly number of bridge fans were present and the game was much enjoyed. Mrs. Timmermeister won the ladies first and E. M. Dockrill won the men's prize.

Mr. Holmes of Topley was a business visitor in Telkwa last week.

A son was born to Mr. and Mrs. Bain in the Telkwa nursing home on Friday June 8th.

O. A. Reigle has been at Hunter Basin for the past week or so.

Mrs. Cornwall and family spent the week end at Topley.

On Tuesday morning of this week the Skeena River had reached last year's high water mark and the water was still rising. The warm days of last week end and the first of this has been raising havoc with the snow in the hills. Sunday it was 87 in the shade and no breeze and on Monday it was 85 with a slight breeze. Tuesday was just as bad, although the breeze was a little stronger.

Mrs. Stoyloff of Dorreen is a patient in the Hazelton Hospital.

BRITISH COLUMBIA

THE MINERAL PROVINCE OF WESTERN CANADA

HAS PRODUCED MINERALS VALUED AS FOLLOWS:—

Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,008; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,699,133; Structural Materials and Miscellaneous Minerals, \$50,175,407; Making mineral production to the end of 1926 show

AN AGGREGATE VALUE OF \$988,108,470

The substantial progress of the mining industry in this province is strikingly illustrated in the following figures, which show the value of production for successive 5-year periods:

For all years to 1895, inclusive	\$ 94,547,241
For five years, 1896-1900	57,607,967
For five years, 1901-1905	96,507,968
For five years, 1906-1910	125,534,474
For five years, 1911-1915	142,072,608
For five years, 1916-1920	189,922,726
For five years 1921 to 1925	214,726,650
For 1926	67,188,842

PRODUCTION DURING LAST TEN YEARS, \$429,547,755

Lode mining has only been in progress about 25 years, and only about one-half of the Province has been prospected; 200,000 square miles of unexplored mineral bearing lands are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than any other Province in the Dominion or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute titles are obtained by developing such properties, security of which is guaranteed by crown grants.

Practically all British Columbia mineral properties on which development work has been done are described in one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, B.C., are recommended as valuable sources of information.

Full information, together with mining reports and maps, may be obtained gratis by addressing

The Honourable The Minister of Mines
VICTORIA, BRITISH COLUMBIA

Women will know This to be True!

Haven't you found this to be true—that one batch of flour will give you certain results but that the next time you bought the same brand your results would be quite different. Now, the big flour companies employ chemists to see that their flours are kept to a constant standard. Drugs, like flours, may be thoroughly pure but of a variable standard. Think what this means in the effectiveness of your doctor's prescriptions.

Ormes buy their drugs only from manufacturers who guarantee that their products are not only 100 per cent. pure, but that their strength is as unvarying as the daily round of the sun.

DEATH TO THE FLY

If there is no breeding place for flies there will be no flies. These almost total disappearance of stables from cities has removed a prolific source of fly propagation. But not all the spots which assist the fly in preserving his species were in the vicinity of stables. Where there is filth there will be flies and where flies go there will come some of the filth accompanying them.

Time was when flies were endured as an inevitable annoyance without an appreciation of the menace to health their presence is. They swarmed because no effort was made to eradicate them. That era is past but there are those still who tolerate conditions which in effect are not inimical to the interests of the fly. Not every house occupant can prevent flies from seeking entrance but everyone can keep them on the outside. It is within the province of all to refuse to purchase food products which are accessible to flies.

Were everyone to eliminate breeding places on his own premises and to screen and swat, the fly soon would become as completely extinct as the monsters of which we know only through their fossil remains. The fly is small but he makes up in industry and persistence what he lacks in size. We become alarmed when an epidemic threatens, yet too many of us tolerate the fly when we know his capacity as a disease carrier. Because he is no novelty we minimize the peril which he may transmit.

Health Service

Of the Canadian Medical Association

FLIES

Insects play an important part in the spread of disease. Typhus fever which was also known as Jail or ship fever is spread by the body louse and has disappeared as a result of personal cleanliness. Yellow fever and Malaria are spread by certain kinds of mosquitoes.

In Canada, our chief insect problem from the standpoint of disease amongst human beings, is the common house fly. Because the fly is covered with minute hairs and because of its habit of lighting and feeding on all sorts of filth, the fly carries and transfers filth from one place to another.

Flies feed on anything, including body wastes and secretions. When they light on such matter it sticks to them and they carry it to their next point of rest, which may be the milk-jug, the sugar bowl or the food on the table. If the filth in which they have been contained disease germs, they carry these along with the filth.

The fly feeds by sucking up its food. If the food is dry, the insect discharges fluid from its stomach to moisten it and thus it passes out some of the filth it has previously fed upon to whatever it now seeks to eat.

Flies breed in any collection of waste of organic matter, such as garbage but preferably horse manure. Such breeding should be prevented by proper cover and regular removal. Outside privies should be screened. Flies should never be allowed to light on the baby or the babies food; they are frequently responsible for the spread of summer diarrhoea.

Flies are really dangerous. They do spread disease and so should be destroyed.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin, "How Pre-empt Land."

PURCHASES

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and the land has been surveyed.

LEASES

For grazing and industrial purpose areas not exceeding 640 acres may be leased by any one person or company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts, and the range administered under the Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, per-

Issue Pamphlet Board of Trade Terrace Dist.

The regular council meeting of the Board of Trade was held in the council chamber on Tuesday evening with a good attendance of the members present. The secretary read a letter from the Game Board advising that they were recommending upon the suggestion of the local board of trade that Lakelse Lake and that part of the district lying east of Shames siding, now situate in the western district, be put in the eastern and northern district for the purpose of the game act and for the shooting of migratory birds.

A petition from the residents of Rosswood for the board's endorsement of their recommendations that the shore trail from Rosswood to the foot of the lake be put in proper shape for travelling purposes during rough and stormy weather when the lake was not navigable. They estimated that an expenditure of \$2,000 would give the necessary results and the board endorsed their request.

Thanks were extended to the University of B. C. for the address given recently by Prof. Boggs.

The data for the pamphlet for publicity purposes was read and it was suggested that it would have to be condensed somewhat in order to get it all in eight pages. A committee of two was appointed to condense it and to authorize its publication by the Omineca Herald press whose tender for the work was the lowest.

The Fall Fair Association had a request before the Board that the Board undertake to collect exhibits for the fair at New Westminster this fall. The request was laid over until another meeting.

ONE BROWN BEAR STORY

A brown bear raised havoc with dinner pails and coats left by a bridge gang beside the road last week on the Lakelse trail. The bear scattered things in all directions and pucked the coats away up the trail. When the owners went to ascertain the cause of the interference they encountered Mr. Bruin on a side hill and his attitude suggested that he would scatter the owners if they wished it. They (the owners) bet a hasty retreat, falling over one another for first place on the road. The bear only turned back when he sighted the main gang at the bridge and admitted that he was outnumbered out of all proportion.

Local strawberries will be on the market early this week. Considerable damage was done to plants last winter by frost yet the crop promises to be a very good one. The growers are realizing the necessity of winter protection for the plants. Until arrangements can be made for that protection a good many farmers are only growing enough berries for home use.

Between forty and fifty of the local people took in the peeing dance at the Kalum Lake hotel on Saturday evening and they all had a good time.

Many improvements have been made at the Kalum hotel since Mr. Dix took it over. Local people say it is a real pleasure to spend a day and night at Kalum Lake now.

Mrs. Geo. H. Munro of Prince Rupert, who had been a guest of Mrs. John McRae for a couple of weeks, returned to her home last Monday.

days in Prince Rupert.

Mrs. A. C. Fowler and two daughters left for their home in Smithers on Saturday after a pleasant holiday with Mrs. T. J. Marsh.

Miss Elderkin entertained the high school pupils to a picnic on Saturday afternoon when they journeyed out to Spring Creek falls. They had a fine time.

Mrs. T. E. Brooks was an afternoon tea hostess on Saturday. She was assisted by her sister, Mrs. W. H. Watt.

Mrs. Geo. E. Keith and Miss Kerr were afternoon tea hostesses on Friday last. A large number were present including some from out of town. Mrs. T. J. Marsh assisted in the reception. During the afternoon Miss Kerr rendered several violin selections, being accompanied by Mrs. Keith and Mrs. Allen sang two solos. In serving the refreshments the hostess was assisted by Mrs. R. W. Riley, Mrs. (Dr.) Brannitt, Mrs. Burnett, and Mrs. C. R. Gilbert and Mrs. A. H. Barker presided at the tea urns.

John Couture and J. V. Bull of Kalum Lake were in town this week.

Mr. and Mrs. John Raven of Kalum Lake arrived early in the week accompanied by their daughter and two children. Mrs. Raven left immediately to look after Mrs. Creelman's family for a few weeks while Mr. and Mrs. Creelman are on a holiday trip. Mrs. Hunter and children went on to Lakelse Lake where they will visit Chas. Raven.

QUALITY is apparent in the longer, lower, more beautiful bodies of the "Bigger and Better" Chevrolet . . . quality such as only Fisher craftsmanship and Fisher steel-and-hardwood construction can impart.

And that same impressive standard of quality extends clear through the "Bigger and Better" Chevrolet . . . down to every last detail of its design and construction.

It is Chevrolet's insistence upon quality that provides the smooth, effortless power of the "Bigger and Better" Chevrolet engine . . . that gives you such a swift, flashing getaway when you step on the gas . . . that assures you such safety when you apply the non-locking four-wheel brakes . . . that gives you so much real motoring pleasure for so many thousands of miles.

It is quality that makes the "Bigger and Better" Chevrolet the world's most luxurious low-priced car . . . quality that makes it the world's most outstanding value in the low-priced field.

Accept no verdict but your own. Weigh no evidence but that of Chevrolet's own performance. Judge Chevrolet quality for yourself . . . by taking a drive today.

C-9-6-28C
The G.M.A.C. . . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.

The King's Messenger

Continued on page 4

and fall with a foot of steel showing between his shoulder blades.

As he lay gasping out his life on the floor, a measured tramp of feet sounded behind the crowd and an officer and a file of soldiers appeared.

"What is this," demanded the officer, sternly.

"Sir officer," replied the stranger, stepping forward with expressionless face, "this dying man has interrupted the business of the king's messenger and has paid the penalty. Lead me this instant, if you will, to Monsieur le Duc du Gastrand."

A gasp ran through the crowd. What irony of fate was this that the killer should ask to be led to the man who lay there before his very eyes, dying by his own sword.

"What do you wish with M. le Duc?" queried the officer, not completely understanding the strange tension in the room.

Placing his hand on his bosom, the stranger brought forth a parchment sealed with the royal seal.

"In the name of His Most Gracious Majesty King Louis of France, I bear to M. le Duc du Gastrand a free pardon to past offences and a royal command for his return to the Court of France and the favour of his Majesty.

Someone looked at the dying man. A hysterical laugh rang through the room.

Mixed in his ears with the roar of his ebbing life, M. le Duc du Gastrand heard the sound of laughter that swelled until it became a thundering clamour. For a moment he dully wondered what it was all about. Then, as the veil darkened over his eyes, M. le Duc, an exile no longer, went to meet his King.

J. C. Brady, M. P., for Skeena, is the author of a very fine article on Prince Rupert published recently in the Christian Science Monitor.

TIMBER SALE X9912

There will be offered for sale by Public Auction at the office of Forest Ranger, Hazelton, B. C., at noon on June 20th, 1928, the Licence X9912, Skeena Valley, north to Hazelton, Cassiar, to cut 70,000 lineal feet of Cedar poles and piling.

Provided anyone unable to attend the auction in person may submit a sealed tender to be opened at the hour of auction and treated as one bid. Two years will be allowed for the removal of this timber.

Further particulars of the Chief Forester, Victoria, or District Forester, Prince Rupert, B. C.

Water Notice!

DIVERSION AND USE

Take notice that Mohawk Mining Company, Limited (N.P.L.) whose address is 303 Rogers Building, Vancouver, B. C., will apply for a license to take and use 20,000 gallons per day of water out of Four Mile Creek, which flows northwesterly and drains into Bulkley River, about four miles east of Hazelton.

The water will be diverted from the stream at a point about 1/2 mile upstream from mouth of Four Mile creek and will be used for mining and milling purposes upon the mine described as Mohawk Group of Mineral Claims.

This notice was posted on the ground on the 9th day of April, 1928.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Smithers.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria B. C., within thirty days after the first appearance of this notice in a local newspaper.

MOHAWK MINING COMPANY,
Limited, (N.P.L.) Applicant

POWER

Builds Industries!

POWER DEVELOPMENT	
1916	231,700 H.P.
1926-7	460,562 H.P.
Capital Invested in Manufacturing	
1916	\$158,000,000
1926-7	\$340,000,000

BRITISH Columbia's Power resources are the envy of the world. With Power, the riches of the world can be won; with Power, ores can be mined . . . smelted; transportation problems solved; manufacturing industries developed, and with them population . . . pay-rolls. Power is British Columbia's strongest bid for more industries . . . more people.

Of the millions of horsepower available in our province, but half a million are now harnessed to turn the wheels of industry. The great hydro-electric development at Bridge River will ultimately generate more than 600,000 horsepower, while the output at Bonnington Falls and other points is being steadily increased. The Campbell and Chilko Rivers, on the mainland, and the Nimpkish on Vancouver Island, are capable of tremendous power development for the conversion of our forest and mineral resources into fabulous wealth.

Two of British Columbia's Electric Power systems are among the greatest in Canada, each generating more than 400,000,000 kilowatt hours in 1927. This represents an increase in the last ten years of 98% . . . truly a remarkable achievement!

Foreign authorities speak of this record as a measure of the great vitality of British Columbia.

Today we rank third in power and industrial development among Canadian provinces. We have made greater progress per capita than any!

It is the policy of British Columbia to foster the development of the hydro-electric powers for the benefit of the public. They are allotted to private enterprises on condition that they will be developed within a certain time, so that no exploitation of public assets may take place.

Millions of dollars are now earmarked for Power development in our province. Dams are being built, turbines installed . . . transmission lines erected to care for the imminent industrial development.

Thousands of dollars are being expended weekly on materials and wages; thousands are feeling the immediate benefits of this enterprise.

Side by side with our power development, Industrial Expansion has kept pace. Today 17% of Canada's external trade is handled by British Columbia. During the past decade, our basic industries have increased 101.3%. Our total payroll, including all classes, is estimated at 210 million dollars. Today, our Lumbering, Mining and Fishing industries employ 72,517 people, paying them 175 million dollars in wages . . . distributing an average wage ranking among the highest in Canada.

These 175 millions in wages are a great contribution to our annual internal trade in the province. They have given our industrial workers a buying power ranking second in the Dominion and have largely been responsible for our ever increasing prosperity, as evidenced by the fact that the number of automobiles registered in the province last year was 76,187 as compared with 8,596 in 1916.

British Columbia's steady and varied industrial development has changed the conception in Eastern Canada and the United States of our province. No longer are we entirely dependent on the East for our manufactured products. British Columbia is increasingly furnishing her own needs. She now ranks third in the whole Dominion as a manufacturing province.

Our phenomenal Power and Industrial growth has focused the attention of the great industrialists and investors on our province. Today, British Columbia in the eyes of the world, stands for Power, Progress and Plenty. May our efforts of the next ten years stabilize and increase our Prosperity!

Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

Pacific Milk is Fresh

Besides green meadows where prize herds graze the plants that pack Pacific Milk are located. Vancouver is but a short distance away. Immediately the milk is packed it comes upon the market here and so reaches the table pure and fresh. It is this unusual freshness which helps to give this rich milk its finer flavor.

HAZELTON B. C.

The King's Messenger

By Keith Howard

Monsieur le Duc du Gastrand was a bloody-minded ruffin. Exiled from the court of France two years ago for some crime which was atrocious even to that age of rapine and murder, he was now the terror of the little town of Quebec in New France. No youngster fresh from school was to innocent for him to pick a quarrel with no old man was too weak for him to wantonly insult and then kill in an unmatched duel, and afterwards calmly plead to an outraged Governor that it was "an affair of honour."

He would have been killed long before, were it not for the fact that even when under the influence of wine he was still best swordsman in all New France; so he lived on, and the people of Quebec longed either for his death or else his pardon and recall to the Court of France. Eitherway, he and his vile temper and hasty sword would quit Quebec.

Tonight he had been drinking heavily and, flushed with wine, he was now seeking a fresh quarrel. In this way, he delighted to make the people of New France suffer for his exile from the France of his birth.

The tavern in which he was sitting consisted of a long, narrow room surrounded by small tables and warmed by a huge fire of blazing logs, in front of which sat a keen-faced Chevalier, wrapped in a grey cloak. He was a stranger to Quebec, and sat remote from the crowd, nor could they prevail upon him to talk of his affairs.

For half an hour or so M. le Duc had directed his sneer at his silent guest. Finally, seeing that he could not force a quarrel by words alone, he strode up behind the seated man and bumped roughly against him.

"You drunken lout!" he cursed, "How dare you sit there and steal the heat of the fires from your betters."

At this wanton insult, which was obviously only an excuse to quarrel, the stranger turned and drawing himself up to his full height, looked his tormentor full in the eye.

"Sir!" he said sternly, "I am at present engaged on the business of my master, His Majesty the King of France, and I cannot stop to brawl with every drunken tavern ruffin."

M. le Duc's mocking laughter rang out loud.

The stranger's face grew sterner and his eagle-features became fiercer and more compelling.

"But," he continued calmly, looking straight into the flushed and mocking face of the other, "should you dare to hinder me in my business I will deal with you as you deserve. Out of my way, you dog!"

His hand flew to his sword-hilt and the blade glittered in the firelight.

M. le Duc laughed contentedly. This way or any other suited him. Once more victim to his deadly skill should lie in the Quebec graveyard to bear mute witness to the terror of his name. He drew his own sword and opposed the stranger's exit.

"You called me a dog, I think," he said with a sneer, "beware then, for this dog can bite."

A flashing thrust of the stranger's sword was his only answer, and to this he replied with a savage parry. In a moment the two swordsmen were engaged in a terrific encounter.

The onlookers crowded from their tables to watch the strange fight. M. le Duc fought like the devil possessed using lightning thrusts and fierce counters, which, if they had reached his opponent's body, would have instantly finished the fight. But the king's messenger, fought back with equal vigor but silent and relentless as destiny. Slowly it became evident to the spectators that the stranger must win.

M. le Duc also must have realized that he had met his master at last, for with a terrible curse he leapt forward in a final furious attack—to stagger

Short Stories Close to Home

A carload of Fords arrived in Smithers on Sunday for The Henry Motor Co. Two of them will be sent on to Hazelton. The same train brought in another carload of new cars from General Motors for the Smithers Garage, conducted by O'Neill & Wall.

The first anniversary dance of the opening of the Evelyn school was held in the school house on Saturday evening. There was a good sized crowd present.

Last week end the weather was of such an excellent brand that many cars were on the roads. The roads, too are in splendid shape. The big mistake made by the public works department was that all the chuck holes have been filled and when the premier and the leader of the opposition travel over them shortly they will conclude that our roads are good enough and that no more money need be expended.

J. D. Boulding was down from the Duthie mine on Sunday last.

Mrs. R. B. Fisher and child left the Hazelton Hospital this week for their home in Chilco.

Mrs. L. Hagen and child left the Hazelton Hospital this week for their home in the Kisplox.

Rev. T. Ferrier of Brandon, Man., superintendant of hospitals and Indian schools, is spending the first part of this week with Dr. Wrinch. He is on his annual trip of inspection of the Hazelton Hospital.

This week a number of Indian children of Hazelton, Glen Vowell and the Kisplox reserves will go to Edmonton to attend school.

The witnesses and interpreters from Hazelton who were connected with the Sanky murder trial, have returned to their homes. Some of them were away several weeks. Sanky was acquitted by the New Westminster jury. The trial of Sanky cost the province in the neighborhood of sixty thousand dollars. The murderer of the young school teacher is still at large.

Fred Nash, land surveyor of Terrace is doing some work on Nine Mile for the Duke Mining Co. preparatory to establishing an extension to the transportation system between the tunnels and the wagon road. Reports from the mine are that tunnels three and four are making good progress and are still in ore.

The new tunnel on the Mohawk property on Four Mile mountain encountered ore last Saturday. This is much sooner than was anticipated, and still a long way from the objective.

W. S. Harris has been on a trip to Vancouver.

R. J. McDonell of Stewart is at present in Smithers in connection with a deal for his mining property.

Jane York goes to Rupert on Thursday to spend a few days holidays.

TIMBER SALE X10128

Sealed tenders will be received by the District Forester, Prince Rupert, not later than noon on the 21st day of June, 1928, for the purchase of License X10128, on the Skeena river between Pitman and Pacific Coast Range 5, to cut 50,000 lineal feet of Cedar poles and piling.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. the District Forester, Prince Rupert, B. C.

Mrs. Sawle will go to Prince Rupert on Thursday for a few days and when she returns she will be accompanied by Jean Burns who has been attending Columbian College, New Westminster.

H. C. French, head of the Hudson's Bay Company in Canada, with headquarters in Winnipeg passed through last Friday night enroute Winnipeg after a visit to the coast.

Mrs. J. C. K. Sealy is visiting in Rupert for a few days.

Rev. T. D. Proctor and R. S. Sargent, lay delegate to the synod meeting, at Prince Rupert, have returned home.

The public school examinations will start next week with the entrance examinations the week following.

A Parcel Tea, under the auspices of the W. A. to the H. H. will be held on Saturday afternoon, June 23rd, from 3 to 6 at the United Church. A cordial invitation is extended to all to attend. If the weather conditions permit the affair will be held in the lawn.
